## The Mystle - Shop Vac Extractor Kit

---

### Thank you for purchasing the Shop Vac Extractor Kit!

This kit is designed to help you easily extract water for cleaning vehicles, carpets, and upholstery.

---

### Kit Contents:

- (1) 10-foot vacuum hose with multiple universal fittings
  - (1) 25-foot water line:
    - One end: NPT quick-attach fitting (for extractor head)
    - Other end: Female garden hose adapter (for hose or faucet)
- 

### Setup Instructions:

#### Step 1: Connect the Vacuum Hose

1. Find the hose end that best fits your shop vac inlet.
2. Push the hose end into your shop vac securely.
3. Attach the opposite end to the extractor head.

#### Step 2: Connect the Water Line

1. Take the end with the NPT quick-connect fitting.
  2. Snap it onto the extractor head water inlet.
  3. Attach the female garden hose adapter end to:
    - A garden hose, or
    - A faucet with compatible threads.
- 

### Operation:

1. Ensure all connections are tight.
  2. Turn on your water supply.
  3. Power on the shop vac.
  4. Use the extractor head on the surface you want to clean.
- 

### **Maintenance & Storage:**

- After use, turn off the water and vacuum.
  - Disconnect and drain both hoses.
  - Rinse off any dirt or residue.
  - Coil and store in a dry location.
- 

### **Safety Tips:**

- Do not use hot water over 120°F (49°C).
  - Do not kink or twist the hoses.
  - Always disconnect power and water before removing fittings or cleaning.
-
